

New England College of Optometry

NECO's Drug and Alcohol Abuse Prevention Policy

Introduction

As a recipient of federal monies, the New England College of Optometry maintains a Drug and Alcohol Abuse Prevention Policy, in compliance with The Drug Free Schools and Communities Act Amendment of 1989. The purpose of the policy is to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol, and the abuse of alcohol, by students and employees.

In accordance with federal regulations, the policy contains information about the use of drugs and alcohol in relation to:

- the standards of conduct expected by the College;
- disciplinary actions for violations of the standards;
- legal sanctions for violating corresponding laws;
- potential health risks;
- accessible counseling and treatment services.

This policy is distributed annually to all students and employees. There is a biennial review of the policy to determine its effectiveness, to implement any necessary changes, and to ensure the consistent application of sanctions for violations of the policy.

Standards of Conduct

NECO supports, promotes, respects and expects adherence to federal and state laws regarding alcohol and drugs. The NECO community is composed of students, faculty, staff and alumni. The entire community must assume responsibility for providing a climate that respects personal rights, federal and state laws, promotes safety, and models appropriate and normally acceptable behavior.

The College strictly prohibits, on its premises and at all College-sponsored functions off-campus:

- the possession, use or distribution of illicit drugs, including the inappropriate possession, use, or distribution of pharmaceutical drugs;
- the possession or consumption of alcohol by, or distribution to, persons under 21 years old.

The College reserves the right to restrict the use, distribution, or possession of alcohol on College premises or at any College-sponsored functions by persons 21 years old or older. The College also reserves the right to request documentation of age before serving alcohol.

New England College of Optometry

Functions planned in which alcohol will be served must be pre-approved at least one month in advance of the event. At all College functions, non-alcoholic beverages must be provided and located in a visible area separate from alcoholic beverages. Food must always be available at all College functions where alcohol is served.

For Employees - Approved by Presidents Office

For Students - Approved by the Dean of Academic Resources and Administration

Additionally, NECO prohibits the unlawful use, possession, sale, distribution, or manufacture of controlled substances as part of college activities. NECO also prohibits the use, possession, sale, distribution, or manufacture of other substances, even though they may not be illegal, including, but not limited to, whipp-its, 2-C's, molly, ecstasy, NBOME, Spice, K-2, and non prescribed performance enhancing drugs ("prohibited substances").

The College expects employees and students to create and maintain a professional and educational environment that is safe and healthy and encourages responsible conduct. Furthermore, the College holds employees and students responsible for the consequences of using or distributing illicit drugs and serving or consuming alcohol.

Policy on Recreational Marijuana

Although the Commonwealth of Massachusetts has legalized recreational use of marijuana by people at or over the age of 21, NECO must abide by federal laws, including the Drug-Free Schools and Communities Act, in order to remain eligible for federal funding, including funding for student financial aid. Therefore, NECO must continue to maintain and enforce its prohibition on the use of marijuana. This means that for all students, regardless of age, NECO prohibits the use, sale, manufacture, distribution, possession, or facilitation of the use of marijuana on campus.

Student members of the NECO community who are in violation of this policy are subject to local, state, and federal law as well as disciplinary adjudication under the Code of Conduct in the Student Handbook.

Disciplinary Action

Student Violations

Reports of suspected violations of the Drug & Alcohol Abuse Prevention Policy by students will be responded to by the Vice President of Academic Affairs and the Student Affairs Committee.

Disciplinary action will be imposed on students who violate the Drug & Alcohol Abuse Prevention Policy and may include immediate suspension or dismissal from the College

New England College of Optometry

as well as affect the student's eligibility for financial aid. Please see www.FAFSA.gov for further information.

Students violating local, state, or federal laws regarding drugs and alcohol on College premises or at College functions are not exempt from the corresponding legal sanctions. Disciplinary action taken by the College for legal violations may include a referral to local authorities for prosecution, the sanctions listed above, and/or mandatory completion of an appropriate rehabilitation program as a condition of continued student status.

Employee Violations

Reports of suspected violations of the Drug & Alcohol Abuse Prevention Policy by employees will be responded to by the College administration. Disciplinary action will be imposed on employees who violate the Drug & Alcohol Abuse Prevention Policy and may include immediate suspension or termination of employment.

Employees who are convicted of drunk driving or driving to endanger due to drug or alcohol use, who have responsibilities which include driving College vehicles or transporting College students/employees, jeopardize their employment if such conviction or circumstances surrounding the conviction pose a risk to the College community. The College will enforce strict sanctions as warranted by the circumstances.

Employees violating local, state, or federal laws regarding drugs and alcohol on College premises or at College functions are not exempt from the corresponding legal sanctions.

Disciplinary action taken by the College for legal violations may include a referral to local authorities for prosecution, the sanctions listed above, and/or mandatory completion of an appropriate rehabilitation program as a condition of continued employment.

Legal Sanctions for Violating Alcohol Laws

A minor in possession of alcohol, who is not accompanied by a parent or legal guardian, may be subject to a fine and arrested without a warrant by a police officer and if convicted may have their driver's license suspended for a period of time.

A person who falsifies age documentation or misrepresents their age for the purpose of possessing or consuming alcohol is subject to a fine.

Anyone delivering or serving alcohol to a person under 21, or for the use by someone under 21, is subject to a fine or imprisonment.

The consequences for operating a motor vehicle while drinking an alcoholic beverage may result in a fine and/or imprisonment.

A person suspected by authorities of driving under the influence of alcohol will be stopped and given a sobriety test. Failure of the test can result in immediate arrest, and revocation of one's driver's license. A first conviction for driving under the influence of alcohol may result in a fine, imprisonment for up to two years, mandatory completion of an alcohol education or rehabilitation program and revocation of one's license. Sanctions for driving under the influence increase in severity with each successive conviction.

A person suspected of public intoxication may be taken into protective custody.

Legal Sanctions for Violating Drug Laws

Criminal penalties for offenses vary according to the particular substance and the quantity of the substance. Generally, the penalties for manufacturing or distributing controlled substances are greater than for simple possession.

Illegal possession with the intent to manufacture or distribute is subject to the same penalties as illegal manufacture or distribution. Possessing relatively large quantities of illicit substances will be considered possession with intent to distribute.

In general, persons suspected of possessing, using, or distributing illicit drugs will be arrested and will remain in jail until bail is met. A court date for arraignment will be set within a reasonable timeframe.

Convictions for some offenses include mandatory minimum terms of imprisonment. A person sentenced to a mandatory term is not eligible for parole, furlough, or work release. Penalties for repeat offenses are increasingly harsher.

A person convicted of a drug offense may be declared ineligible for any or all federal benefits for up to one year, or longer for repeat offenses. Federal benefits include grants and contracts, and professional licenses.

Health Risks

Alcohol abuse:

- nausea & headaches
- fatigue
- malnutrition disorders
- brain cell damage
- cirrhosis
- loss of memory
- poor concentration
- liver & stomach cancer
- increased heart rate
- blackouts
- muscle degeneration
- heart disease
- ulcers
- bone degeneration
- personality
- alcoholism

Illicit drug use:

- brain, nerve & liver damage
- respiratory arrest
- convulsions
- hypertension
- lowered blood pressure
- personality disorders
- addiction
- heart failure
- pulmonary edema
- cardiac arrhythmias
- psychosis
- coma
- malnutrition
- death

Counseling and Treatment Services

Students

All students are required to purchase the student health insurance or have an equivalent health insurance plan. Mental health services are considered essential health benefits and should include behavioral health treatment, behavioral health inpatient services, and substance abuse treatment. Please visit the Center for Academic and Professional Achievement to discuss insurance plans purchased through the school and local agencies providing behavioral health treatment options. For emergency service, call 911 or go to the closest emergency room.

Employees

Employees have counseling, treatment, and rehabilitation programs available to them. Please see the Office of Human Resources for information and resources on substance abuse.

The NECO EAP program provides employees with confidential professional counseling and referral services. All inquiries and discussions occur outside of College premises and are strictly confidential. This service is available 24 hours per day at 1-800-316-2797 or mutualofomaha.com/eap.

Boston Area Referral and Treatment Agencies

Listed below are agencies providing referrals and/or rehabilitation services. The list does not represent recommendations for any particular programs. It is advisable to check with your doctor and health insurance provider for individual referrals.

- National Council on Alcoholism and Drug Dependence, Inc. (NCAD)
